

**A lower bound built from records rather than imagery,
and therefore unable to inherit the occlusion it is used to detect**

1. Assessor record

recorded floor area

1,470 sq ft

storeys

1

attached garage

725 sq ft

year built

1998

*no imagery
of any kind*

2. Roof footprint

$1,470 \div 1 \text{ storeys}$

$= 137 \text{ m}^2 \text{ dwelling}$

$+ 67 \text{ m}^2 \text{ garage}$

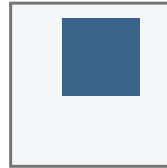

$\div \text{storeys}$
 $+ \text{garage}$

204 m²

roofed ground the
structure must occupy

*sum in
the cell*

3. Physical bound

30 m cell, 900 m²

1 recorded roof,
summed over every
parcel in the cell

bound = 22.7%

compare

4. Test

**21.7 points
unaccounted**

22.7%

bound

1%
